**DETAILED ACTION**

1. This action in responsive to the communication filed on 03/18/09.
2. Claims 48-85, 92, 95-101, 103-105, 108-116 are allowed.

**Response to Amendment**

3. Applicant has amended claims 103-105, 108-110 to correct the 35 U.S.C. 101 issue. The amended claims overcome such deficiency. Therefore, the 35 U.S.C. 101 rejection is withdrawn.

**Allowable Subject Matter**

4. Claims 48-85, 92, 95-101, 103-105, 108-116 are allowed.

**Reasons for allowance:**

The following is an examiner's statement of reasons for allowance: Independent claims 48, 59, 80, 92, 99, 103, 108, 111, 114 recite the uniquely distinct feature of: generating an electronic ticket for providing an electronic key device authorization to unlock an electronic lock device, the electronic ticket comprising a public key corresponding to the electronic key device and a link key configured to authenticate an identity of the electronic lock device, wherein the ticket is transmittable from the apparatus to the electronic key device and wherein the ticket is electronically signed by the apparatus using a private key of the apparatus, wherein the public key corresponding to the electronic key device, wherein the link key of the electronic ticket is generated using a

one-way hash of a link key of the apparatus and a lock identifier of the electronic lock device. The prior art of record, taken either singly or in combination, fails to anticipate or fairly suggest the limitations of applicant's independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.
